

Entrepreneur Excellence Award

Fort Worth
BusinessPress

The Fort Worth Business Press Entrepreneur Excellence Award recognizes the true spirit of an American entrepreneur. This award rewards the success of a Tarrant County small business owner who started a business and is currently operating the same company within the county.

Congratulations to the Finalists:

Susan Neal, Custom Foundation Repair, LLC

A-Custom Foundation Repair founder Susan Neal opened the company in 2005 when she saw inconsistencies in the foundation repair industry. A-Custom's philosophy is based on the idea that a homeowner needs to be informed on ways to protect the family's most important investment.

Susan believes that being successful in the construction business sets an example for her daughters that they can be successful in any profession — all it takes is honesty, integrity and perseverance.

She credits her participation in "Step 1 — How to Start a Business" at the Business Assistance Center, followed up with business and personal coaching, with helping tremendously in the start-up and growth of her company.
